Making Effective Comments

This is an opportunity for you to be involved in the decision- making process and to offer your input on the information, alternatives, and analyses within the Draft EIS.

The most helpful comments will:

- Provide specific and detailed text changes. Include the section, management action or page number to help us find the exact location of the subject of your comment. Clearly identify:
 - Where the issue or error is located
 - Why you believe there is an error
 - Alternative ideas to address the issue/errors
- Provide constructive solutions with documentation or resources to support your recommendations.
- Include any knowledge, experience or evidence as it relates to your observations and comments.
- Avoid vague statements or concerns that don't give the BLM something on which to act.

Comments are not votes for or against a decision. BLM must rely on supporting information, not the number of comments received. Multiple comments/ topics with the same concern are considered one comment.
